

## PINES NEWSLETTER

Here are some items of interest following the meeting of the Board earlier this week.

### Extractor Fan

The fan on the roof for the A apartments has not been working effectively and repairs have been authorised.

### Stairwell Lighting

We are trialling some LED lights in the stairwells in the hope they will be more effective in the event of a power failure.

### Fire Alarm System

Further to the recent newsletter, scrutiny , checking and rechecking of the system is underway.

### TV System

An upgrade of the system has been authorised and the work should commence soon. It will ensure we have better quality reception.

### Heat Pumps

A report has been requested from a specialist on the practicality of installing heat pumps in a building such as ours. We will revert as soon as this is to hand.

### Director

Having recently rejoined the Board, Richard Buckthought has found other commitments prohibitive and has resigned. We are sorry to lose his contribution.

### AGM

A last reminder the AGM is 7pm in the foyer on Thursday 14 July 2011.
